Consults, exams, insurance and our offices

Consultations and exams

- Free VIP consult for LASIK, SMILE, SMILE Pro, EVO ICL, PIE, PRK and LASEK. It is a surgery consultation, not a full eye exam; candidacy is determined there. We book a free VIP consult in the office or online, not by phone alone.
- Cataract: a free VIP consult only for self-pay (cash) patients. Medicare or insurance cataract patients book a covered annual eye exam or medical evaluation — never a free VIP consult (Medicare anti-inducement rules).
- VIP lifestyle exam (comprehensive eye exam, self-pay): $395.
- VIP focused exam (one specific complaint, such as a stye or dry eye, self-pay): $195.
- Pterygium: free VIP photo and/or video consult.
- Keratoconus (CTAK, Epioxa): no free VIP consult; the visit is the VIP lifestyle exam (self-pay) or an annual eye exam through insurance. We offer free education about keratoconus.

Insurance

We have dropped, and will continue to drop, HMO and optical (vision) insurance plans. Vision insurance usually covers glasses and contacts, not elective surgery. Medical insurance can apply to cataract surgery, to Epioxa with approval, and to some CTAK or pterygium cases when medically necessary. Bring both your medical and vision cards; we will tell you which, if either, applies. For questions about a specific plan, call (310) 482-1240.

Paying over time

- Pre-qualify with CareCredit or Alphaeon Credit using a soft check that does not affect your credit score.
- Monthly figures are for qualified applicants for 24 months. A hard inquiry may occur only if you accept an offer.
- HSA and FSA funds and tax refunds can be combined with a payment plan.
